

Press Conf. Budapest Aug 30.

Shortcomings of Workers' Councils

Question: Recently the workers' councils have been much criticised. Does this mean that they have been called upon to dissolve?

Answer: In the activity of the workers' councils there have been and still are faults and shortcomings. The criticisms were directed against these faults and shortcomings and not for the dissolution of the workers' councils. On the other hand,

at the initiative of the workers' councils, a few workers' councils have dissolved themselves in recent months.
